SECTION ONE – GENERAL RULES

Article 1 – Mission statement

The World Grappling Committee (WGC) was created under the authority of FILA to foster the physical and mental well being of individuals engaging in the discipline of grappling and combat grappling. The World Grappling Committee's goal is to make grappling and combat grappling exciting and spectator friendly sports and to rule their practice on a worldwide level in order to ultimately gain Olympic status.

Article 2 – Philosophy

Combat grappling is a hybrid sport formed of wrestling, jujitsu and other styles of submission fighting that also incorporates striking and kicking techniques. The philosophy lying behind combat grappling is to provide common grounds to all combat styles and to create a safe amateur form of Mixed Martial Arts. Combat grappling also intends to be a realistic form of self-defense covering all aspects of standing and ground fighting, thus making it perfect and safe to use for military, police, and security training.

Article 3 – Objectives

Based on the FILA Constitution and various regulations, the international rules set forth in the present document constitute the framework within which the sport of combat grappling is conducted and promoted and have as their specific objectives to:

- Define and specify the practical and technical conditions under which a match is to take place.
- Determine the value to be assigned to actions and holds.
- List the situations and prohibitions.
- Determine the technical duties of the refereeing body.
- Establish the competition system, classification, technical points, penalties, eliminations, etc.

Article 4 – Application of the Rules and FILA Licence

The rules defined in the present document shall be in effect for all FILA sanctioned events in order to ensure optimal safety of the athletes and a healthy growth of the discipline.

The FILA licence is mandatory for every international combat grappling competition with more than two participating countries. Every international competition must be reported to FILA and added to its official calendar. The FILA insurance will only apply to competitions entered in the FILA calendar.

Article 5 – Anti-Doping and Sanitary Conditions

All athletes participating in FILA sanctioned events agree to submit themselves to the FILA Anti-Doping Regulations and to the World Anti-Doping Code.

Besides, athletes knowingly infected with the HIV/HBV virus are prohibited from participating in combat grappling competitions. Medical staff knowingly infected with the same virus is prohibited from administering healthcare to bleeding combat grapplers.

FEDERATION INTERNATIONALE DES LUTTES ASSOCIEES
INTERNATIONAL FEDERATION OF ASSOCIATED WRESTLING STYLES

Article 6 – Weight Loss

As far as weight reduction on the competition site is concerned, FILA has adopted the following rules: the practice of dehydration or excessive caloric restriction, the use of diuretics, emetics, laxatives, and self-induced vomiting are prohibited by FILA. Combat grapplers under 18 are prohibited from the on-site use of saunas/steam rooms or vapor-impermeable suits. Enforcement of these rules is the responsibility of the tournament committee and its decisions shall be final. A first violation of these rules shall cause the individual(s) in question to be suspended from the competition for which use of the prohibited methods were intended. A second violation shall result in the suspension of the individual(s) from any FILA sanctioned event for one calendar year from time of suspension. The FILA Executive Committee will hear all second violation cases and apply the sanctions defined in the FILA regulations. Any individual assisting a combat grappler in prohibited weight reduction practices shall be held to the same rules and penalties as the athlete in violation.

SECTION TWO – COMPETITION PROCEDURE

Article 7 – Competition System

The competition system follows the system adopted by FILA for the Olympic competitions based on direct elimination with repechage. The pairing is made in order of the numbers drawn. If the number of combat grapplers is not ideal (i.e. 4, 8, 16, 32, 64, etc.), some qualification matches will take place from the bottom of the brackets. The combat grapplers who win their matches continue in the brackets until two undefeated combat grapplers remain. They will dispute the final for the gold and silver medal. The combat grapplers who lost against the two finalists will have repechage matches in two different groups: the first group with the combat grapplers who lost against the 1st finalist and the second group with the combat grapplers who lost against the second finalist. The winners of the two repechage groups will both receive a bronze medal. From the 7th place, the combat grapplers are ranked according to the following criteria:

- Most victories by knockout
- Most victories by submission
- Most victories by technical superiority
- Most victories by decision
- Most victories in overtime

Note: If the place of the combat grapplers cannot be determined with the above criteria, they will be ranked ex aequo.

In case a category counts less than 6 competitors, the competition will follow the “Nordic system” with each competitor fighting each competitor. The ranking will be made according to the number of victories. In case of a tie, the classification points will part the combat grapplers and if they are still equal, the winner of their direct fight will be ranked before the other one.

Article 8 – Medical Examination and Uniform Check

Separate male and female rooms or times shall be provided for medical examination. The athletes shall wear shorts or underwear. The medical staff shall examine them for skin infections and medical conditions such as cuts or contagious disease. It has full authority to decide whether athletes are suitable for competition or not. Once the medical staff has cleared the athletes, they shall proceed to the uniform check table and have their competition uniforms and protection gear controlled by the designated referees. In case their uniforms and protection gear are not compliant with the FILA regulations, the athletes will be given the opportunity to purchase FILA approved gear on the spot.

Article 10 – Drawing of Lots

The weigh-in officials shall also enter the lot number onto the weigh-in list. The drawing of lots shall be conducted at the weigh-in table next to the scales, either manually or by computer with the official FILA competition software.

SECTION THREE – MATERIAL STRUCTURE

The medical staff will be under the authority of the FILA doctor in charge and will be responsible for conducting all medical examinations as well as giving medical surveillance during the entire event. During the competition, the medical staff shall be ready to intervene in the event of an accident or injury and decide whether a combat grappler is fit to continue the match.

The Head medical officer has full authority to stop a match at any time if he deems either combat grappler to be in danger. He may also stop a match if he feels a combat grappler is medically unfit to continue. A combat grappler shall not leave the mat in the event of a serious injury. In such case, the referee shall immediately stop the match and ask the Head medical officer to examine the combat grappler on the mat.

SECTION FOUR – REFEREEING BODY

Article 16 – Composition

The refereeing body for each match will consist of one mat chairman, one central referee and two side referees. The central referee shall stand on the center circle of the mat facing the table staff, while the two side referees stand facing each other on each side of the mat.

- Break action if the combat grapplers' safety is deemed to be in danger.
- Stop the match in case of injury and make the medical staff intervene.

SECTION FIVE – THE MATCH

Article 22 – Duration of the Matches

- Junior and veteran matches last 4 minutes.
- Senior matches last 5 minutes.

Article 23 – Call and Start of the Matches

Both combat grapplers' names shall be called in a loud clear voice to the mat. Combat grapplers shall be called 3 times with at least a 30-second time interval between each call. If after the third call a combat grappler has not checked in at the mat, he/she shall lose the match by forfeit.

When their name has been called, the combat grapplers shall stand in the corner corresponding to their assigned color and wait for the central referee to call them to his/her side. The central referee shall inspect their competition uniform and protection gear and give them 2 minutes to change them in case they are not compliant with the present regulations. In case an athlete does not come back to the mat with a satisfactory uniform or protection gear after 2 minutes, he/she shall lose the match by forfeit. The central referee shall also inspect the combat grapplers to make sure that their skin is not covered with any greasy or sticky substance, or with perspiration. After the central referee has completed his/her inspection, the two combat grapplers shake hands. The referee then says "**Ready**" to command the athletes into combat stance. The match starts when the referee announces "**Action**".

Article 24 – Level of Contact and Targets

Punches and kicks to the body and head are allowed with full contact. Combat grapplers are not allowed to target the:

- Back of the head / Neck / Throat / Along the spine / Kidneys / Knees and below / Groin

Article 25 – Scoring for Ground/Grappling Actions

Points will only be awarded if a combat grappler manages to gain a dominant control position for 3 seconds.

To ensure a higher level of submissions, points for dominant control positions (i.e., side mount, full mount, and back mount) will follow a system of progression, meaning that positions have to be improved to be awarded points. The dominant control position progression will reset if the top grappler loses dominant control and the bottom grappler re-establishes ground/standing neutral position for at least 3 seconds.

1-point techniques

- **Takedowns:** When a combat grappler manages to take his/her opponent down and gain top control for 3 seconds. If, with the takedown, the grappler manages to establish a dominant control position, he/she will further receive the corresponding points (i.e.: 1+2 for takedowns landing in side mount, 1+3 for takedowns landing in full mounts, and 1+4 for takedowns landing in back mount).
- **Sweep:** When a combat grappler manages to sweep from a bottom position – bottom half-guard, bottom guard (closed and open), disadvantaged position (side mount, full mount, or back mount) – into top guard or into an advantaged position (side mount, full mount, or back mount) and maintains control for 3 seconds. The points for the position achieved will then be added to the sweep point.
- **Escape:** When a combat grappler manages to escape from a disadvantaged position (side mount, full mount, or back mount) into standing neutral position.
- **Jumping into guard:** Jumping into guard from a standing position without a deliberate attempt of a submission or takedown will not be penalized by a caution, but will award one point to the opponent.

2-point technique

- **Side Mount:** When a combat grappler gains control by passing the opponent's leg defenses while keeping the opponent's back to the mat for the count of 3 seconds (including north-south and knee on stomach).

3-point technique

- **Full Mount:** When a combat grappler controls the opponent who is lying on the back, from the top (north or south) with both of his/her knees touching the ground on either side of the opponent for the count of 3 seconds.

4-point technique

- **Back Mount:** When a combat grappler controls the opponent from the back, with the chest to the opponent's back and the legs hooked inside both of the opponent's legs for the count of 3 seconds.

Article 26 – Scoring for Striking Actions

1-point techniques

- Effective and authorized punch to the body or head (standing or on the ground).
- Effective and authorized inside or outside kick to the thigh
- Effective and authorized knee to the body (on the ground)

2-point technique

- Effective and authorized kick or knee to the body (standing)

3-point technique

- Effective and authorized kick to the head (standing)

FEDERATION INTERNATIONALE DES LUTTES ASSOCIEES
INTERNATIONAL FEDERATION OF ASSOCIATED WRESTLING STYLES

4-point technique

- Knockdown

Notes:

Strikes to the shin are permitted only in an attempt to execute a throw or a sweep.

Strikes executed while being thrown do not score points.

Simultaneous strikes (clashes) or takedowns do not score points.

Any technique initiated inside the limits of the mat, but landing out of bounds will be considered valid and be awarded with the corresponding points. In contrast, any attack initiated once both athletes are out of bounds may result in a penalty for the attacker.

Any technique initiated at the gong will be considered valid and awarded with the corresponding points. Any attack initiated after the gong has rung will result in a penalty for the attacker.

In case ground fighting reaches a stalemate point, the referees have full authority to interrupt the match and bring the athletes back up to neutral position.

Article 27 – Knockdown

When a combat grappler is knocked down due to the execution of an authorized punch, kick or throw, the central referee shall let the action proceed and get ready to stop the match at any moment if the athlete fails to defend himself or receives 3 consecutive unprotected punches to the head. The central referee shall then check the condition of the knocked down athlete and carefully determine if medical assistance is required or not. The central referee shall then end the match and declare the opponent winner by default or by technical knockout.

If an athlete has suffered 1 knockout or 2 knockdowns to the head during the competition, the Head medical officer shall suspend the athlete for the rest of the tournament. Depending on the severity of the knockout, he shall prescribe a brain scan and/or impose a mandatory pause of 1 to 3 months. His decision should be reported in the athlete's licence book and sent to FILA for further control.

Article 28 – Injury and Blood Time

The central referee must stop the match and call for injury time if a combat grappler is temporarily injured due to an incidental blow (i.e., eye poke, head collision, etc). When injury time is called, the time keeper is responsible for starting a stop watch and making sure that the total injury time per athlete does not exceed 2 minutes for the entire match, otherwise the injured athlete will lose the match by default.

In the event of a combat grappler injured or bleeding, the medical staff shall immediately intervene. Proper cleaning utensils and disinfectant solutions must be readily available to them at the mat table. It is the Head medical officer's duty to determine whether the bleeding and spread of blood have been effectively stopped and whether the athlete may resume fighting or not. The match shall only resume once all materials used in blood cleanup are properly disposed of. In the event of a bloodied or torn garment that must be replaced, all athletes must have a back up uniform available by their corner.

If the central referee deems that a combat grappler is feigning injury to avoid submission and/or action, he may disqualify the athlete at fault. Similarly, if an injury occurs as a result of an illegal move, the referee shall disqualify the combat grappler at fault.

In the event of the two combat grapplers being simultaneously injured and incapable to continue the match, the victory is granted to the one who scored the highest number of points. If the score is tied, the refereeing body shall consult and vote to determine the legitimate winner.

Article 29 – Interruptions of the Match

If for any reason the match must be interrupted (i.e., injury/blood time, referees' consultation, etc.), the two combat grapplers shall stand in their respective corners facing the centre of the mat, without talking to anyone or taking liquids, and wait for the referee to call them back to the centre of the mat and resume the match.

Article 30 – Decision Criteria

The central referees have full authority to stop the match if they deem that an athlete is in imminent danger of serious injury or can no longer withstand a strike, kick, submission lock, or choke, even if the said athlete did not submit or tap. The athletes' security shall prevail at all times.

When a combat grappler abandons the fight, either verbally or by tapping on the mat or on the opponent's body with a hand or foot, the opponent is automatically declared winner, no matter the amount of points accumulated or the time of the match.

If a combat grappler on the ground position receives three consecutive fully unprotected punches to the head, the central referee shall stop the match and declare a victory by technical knockout.

If, at the end of the regulation time, neither of the situations described above occurred, the combat grappler who scored the highest number of points shall be declared winner.

Article 31 – Overtime

Overtime begins at the end of regulation time when the score of the match is tied. All cautions and infractions accumulated during regulation time are carried over to the overtime period. Overtime lasts 1 minute for all age divisions and the victory is determined by the highest score obtained at the end of the period. In case the score is tied again, the last athlete who scored during the overtime will win the match. If no points were scored, the central and side referees designate the winner by raising their wrist band or flags at the order of the mat chairman.

Article 32 – Protest and Challenge

No protest may be lodged at the end of a match. A challenge can be called for during the match if the Head Referee or a combat grappler's coach deems that a refereeing mistake has been made, but the result of a match may under no circumstances be modified after victory has been declared on the mat.

The challenge is the action through which a coach is allowed, on behalf of the combat grappler, to stop the action and request the refereeing body to watch the video evidence and reconsider its judgement. It is specified that this possibility is only offered during competitions in which the video control is formally established by FILA and the organizing committee. The coach who wishes to request a challenge shall raise his arm and remain seated, immediately after the refereeing body has awarded points or cautions to the contested situation. The mat chairman shall then interrupt the match as soon as the ongoing action is completed. If the combat grappler disagrees with his/her coach's decision, then the match continues.

FEDERATION INTERNATIONALE DES LUTTES ASSOCIEES
INTERNATIONAL FEDERATION OF ASSOCIATED WRESTLING STYLES

The refereeing body is then invited to watch the video evidence and render its final decision along with the Head Referee in charge of the tournament who will have the final say in case of disagreement. Each combat grappler is entitled to 1 challenge per match. If after reviewing the video evidence, the refereeing body modifies its decision, then the challenge can be used again during the match. If the refereeing body confirms its initial decision, the combat grappler loses the challenge and 5 points are awarded to his/her opponent.

Article 33 – Match Classification Points

The classification points that combat grapplers receive for their matches will be used to determine their final ranking.

Victory by Knockout (5 points to the winner – 0 point to the loser)

A victory by knockout is declared when a combat grappler temporarily loses consciousness out as a result of an authorized punch, kick, or throw from the opponent.

SECTION SIX – TECHNICAL INFRACTIONS

Article 34 – Passivity

It is the combat grapplers' duty to maintain action by continuously working on their punching and kicking and/or improving their position to submit their opponent, while making an honest attempt to keep the actions in bounds.

When the referees feel that a combat grappler is exhibiting passivity or stalling, they shall attempt to stimulate him/her by verbal commands ("Red/Blue Action") without interrupting the match. If the athlete continues to remain passive after the verbal commands have been issued, the referees shall indicate the passive combat grappler by raising the fist bearing the right color band and give him/her a caution. Every caution must be reported on the score sheet.

The first warning for passivity is verbal and bears no consequences, the following cautions award 1 point to the opponent up to the third caution which results in the disqualification of the passive combat grappler: Warning > 1st Caution = 1 Point > 2nd Caution = 1 Point > 3rd Caution = Disqualification.

Passivity includes:

- Delaying action by communicating with coach/corner
- Leaving the mat without permission
- Taking too much time to go back to the centre of the mat for restarts
- Misusing timeouts
- Fleeing the mat
- Fleeing the position to avoid stand up or ground fighting
- Turning one's back to the opponent in order to avoid a strike
- False start (i.e., start fighting before the referee's command)

Article 35 – Illegal holds and actions

All offenses fall under the referee's authority. If a combat grappler violates the FILA Code of Ethics in a blatant and unsportsmanlike manner, the referee shall disqualify him/her from the match or from the competition. The referee shall report every violator for membership review.

Each offense results in 1 point awarded to the opponent, up to the third offense which leads to disqualification. 1st Caution = 1 Point > 2nd Caution = 1 Point > 3rd Caution = Disqualification.

If a combat grappler is injured by an illegal action and cannot continue the match, the athlete who caused the injury shall be disqualified.

Article 36 – Ejection Procedures

The World Grappling Committee (WGC) refers to the FILA Code of Ethics and strongly condemns any form of brutality, violence or harassment on the competition site. If an athlete, coach, or spectator goes beyond the acceptable in his/her words, gestures, or actions, it is the central referees' responsibility to judge if that behavior is deemed as a conduct violation. Once the central referees have declared the behavior to be a violation, they shall issue a yellow card to the individual at fault as a warning prior to being ejected. A yellow card will deduct 1 classification point to the team the individual is representing. If the violation continues, a red card will be issued and the individual at fault will be ejected from the competition. A red card will cause 2 classification points to the team. If the central referees feel that the behavior goes well beyond the normal violation, they may skip the yellow card and directly issue a red card.

Every disagreement will be settled by the World Grappling Committee, the organ of appeal being the FILA Executive Committee. If no settlement is established, the parties can bring the case, at their own expense, to the Court of Arbitration for Sport (CAS), located in Lausanne, Switzerland.
